

# THE STRENGTH TO COMPETE

## HIAB BUILDING MATERIAL CRANES

# FIND YOUR **TRUE STR**

When you work with building materials, you know that strength is about more than how much you can lift. To really be strong in a competitive market, you need to be able to deliver. That means taking on more jobs and getting them done even faster, which in turn means having the right equipment.

HIAB building material cranes give you unbeatable cost-effectiveness with true flexibility in materials handling. The new models L-HiPro 235 and L-HiDuo 225 provides a stunning lifting capacity relative to it's own weight and the long outreach

# LENGTH

with just a few high speed extensions make your day. You can also reach even further, thanks to an outreach of 34.4 feet with 2 extensions or 41.3 feet with 3 extensions. The end result is a crane that lets you lift more, get work done

safer and more efficient, so you can deliver even more than you thought possible each working day.

That's how Hiab building material cranes let you find your true strength.

# BUILT TO PERFORM

## HiDuo or HiPro control system

The best crane is only complete with the best control technology. HIAB brick & block cranes can be steered with two types of control systems, both based on the high-precision, industry-leading HIAB valve technology.

HIAB HiDuo is a choice for high efficiency and value. It ensures great performance and fast load cycles, responding instantly to your lever movements and providing added stability even during vertical lifts. You have full control over the load at all times.

HIAB HiPro is simply the best of the best, offering top versatility and precision for the very highest productivity. Its high flow of oil creates ultra-quick and ultra-smooth response, with support for a large number of simultaneous movements. You get assurance of rapid load cycles, total safety and the lowest lifetime cost.

## Load Stability System (LSS)

LSS automatically dampens abrupt stops that could otherwise cause the load to swing. This makes crane operation faster and smoother and helps protect the cargo, the vehicle and the work environment in the vicinity of the crane against potential damage.

## IQ control

The HIAB L-HiPro 235 and L-HiDuo 225 cranes feature the SPACE X4 intelligence system for efficient monitoring and controlling all electronic functions. The system has a simple and intuitive interface for maximal peace-of-mind.

To further facilitate operation, the HIAB L-HiPro 235 and L-HiDuo 225 cranes are also equipped with an external display.

*Maintenance-free slide pads*

*Fast-speed extensions*

## nDurance

HIAB nDurance protects the crane from the elements with the best in surface protection. Technologically advanced and environmentally sound, this high-tech painting system first shields the crane's parts with an ultra-thin nanoceramic layer that prevents corrosion. Afterwards they receive a lacquer polymer e-coating and a durable powder coating, creating stunning good looks that will last the crane's lifetime.

**nDurance**

# RM

*Well-protected hoses,  
cables and sensors*

*Steel with high  
tensile strength*

*Variable oil pump*

*Oil-filled slewing house*

*Integrated oil tank in crane base\**

*Easy tilting of stabiliser legs*

\* Standard or optional, depending on crane model

# ACCESSORIES THAT ENHANCE YOUR EQUIPMENT

Extend the versatility of your HIAB building material crane by adding one or more tools from the wide range of HIAB accessories. Manufactured to the highest standards, they enhance functionality and performance.

## Pallet fork

Handling loads with a pallet fork has a number of advantages. Since the load is palletised and lifted from underneath, it is possible to lift many different types of loads – including soft and flexible loads as well as solid ones. A pallet fork is also less expensive than the main alternative, a brick grab.

## Brick grab

There is a lot to gain from using a brick grab, including speedier handling of your loads. The load does not have to be palletised, and it can be handled even in awkward positions where space is limited. HIAB brick grabs are extremely versatile and made to withstand heavy-duty work – all day, every day.

## Quick Change Systems

The quick change system enables an easy exchange between different attachments. The mechanical coupling and locking is achieved by the turning motion of the rotator. You simply disconnect the quick couplings and disengage the locking device manually. The quick change system allows the easy exchange between pallet fork and brick stack grapple for example.

---

## Easy to mount, easy to service

When choosing Hiab Selected Accessories, you can be sure to get the most out of your equipment. Hiab Selected Accessories live up to the market-leading Quality and Performance standards set by Hiab.

# POWERFUL SUPPORT

When you choose a HIAB crane, you choose a crane that will stay with you over the long haul. Hiab will be with you too, providing world-class service and support. Our commitment to quality and reliability goes beyond the crane itself to include parts, services and preventive maintenance.

## Thinking ahead

HIAB cranes are optimally built for easy mounting on the truck chassis. The whole installation, including any necessary chassis reinforcements, is designed for the lowest possible overall weight.

To make installing your crane simple and quick, we provide complete documentation including technical data, installation instructions and software for calculating axle loading and stability.

## Your time is valuable

HIAB cranes are designed for easier everyday maintenance. Key parts and components that require regular attention are located where you would expect them, and where they are easy to access. A good example is the integrated oil tank in the crane base, which can be installed without rearranging truck components and is quicker and simpler to reach.

When more is required, our fully trained and accredited service personnel know all there is to know about your HIAB crane. Above all, they know the importance of servicing or repairing it as quickly as possible. With the absolute minimum downtime, they get your product back in business and making a profit.

## From parts to people

Original spare and wear parts of the highest quality ensure that your HIAB crane will always be a HIAB product. In other words, they give you the same functionality, performance and safety you have chosen from the start.

With the largest service network in the industry, you are never far away from our skills and expertise. Like our cranes, our people work harder and go further for you.

## Hiab ProCare™ for planned performance

In every way, our aim is to keep you moving so you can deliver as promised. With Hiab ProCare™\*, we can take on the burden of inspections, planned maintenance, scheduling and more, giving you the best assurance to produce as planned. Simply choose the level of service agreement that makes sense for your business:

Hiab ProCare™ Inspection makes it simpler and easier to comply with inspection regulations for your crane. With the thorough yet efficient scheduled inspections, it is possible to prevent a number of unpleasant surprises and you are back on the road fast.

Hiab ProCare™ Essentials is the best addition to your new crane, including the preventive maintenance programme and scheduled inspections as recommended by Hiab. Put your maintenance planning in our hands and we keep your crane operating with the original high performance to avoid un-necessary cost and downtime.

## Our commitment to you

Hiab is the world's leading provider of on-road load handling equipment. Customer satisfaction is the first priority for us. Hiab's product range includes HIAB loader cranes, MOFFETT truck mounted forklifts, JONSERED recycling and forestry cranes, LOGLIFT forestry cranes, and MULTILIFT demountables, as well as DEL, WALTCO, and ZEPRO tail lifts.

At Hiab USA, we have invested heavily in our nationwide service and support team as part of our commitment to our customers. Our network of Hiab USA branch locations and more than one hundred factory-trained mobile service technicians provide your HIAB crane with an unrivaled coast-to-coast service network.

### That is our promise to you.

For all your sales and service needs, call our nationwide hotline at 419.482.6000 to find your nearest Hiab USA branch.
