

HIAB T-CRANES COMPACT CRANES, LARGE TASKS

The HIAB T-Cranes are a stiff boom HIAB light Range model with a folding structure optimized for transportation. T-Cranes are ideal for smaller to medium sized truck installations and are exceptional for material handling, adding flexibility to each loading

and unloading operation. The Duo control system and the optional HiDuo control system provide you all the assistance of functions that add safety and ease of use. These small cranes are ideal for a wide range of material handling needs when handling lighter materials. The special nDurance paint protection finish further contributes to making the crane look and last longer.

HIAB ADDRESSES YOUR INDUSTRY PAIN POINTS

Hiab loader cranes are stronger, tougher, and smarter, easily adapting to the ever changing needs of the roofing industry. With reliable support, intelligent services, and a growing number of connected solutions, Hiab loader cranes will maximize performance by offering the right solution for loading, unloading, or moving materials. Like no other truck mounted equipment provider, Hiab understands the specific requirements and realities of any industry and will help secure a safer, more efficient operation with reduced downtime while maximizing revenue.

SAFETY - Hiab's industry leading technology provides world class, industry leading safety features that keep operators safe and in control, minimizing risk to individuals or the environment. With the smart technology solutions of Hiab's loader cranes, human driven errors and unsafe operations are reduced.

EFFICIENCY - Hiab's advanced technology drives the performance of the equipment resulting in superior operation efficiencies. Hiab's class-leading products can not only be used by operators of different skill levels, but are also helpful with everchanging resources, supporting business efficiency and increasing productivity.

DOWNTIME - Hiab's renowned reliability combined with industry leading safety features and control systems is proven to reduce downtime, while our nationwide service network ensures that equipment is maintained with minimal oversight.

TRAINING - Training and educating operators takes time, but Hiab's advanced control systems and technology allows customers to manage their resources in the best way, whether the operator is highly experienced or a new employee without losing too much time.

RELIABILITY - Hiab loader cranes are the industry leaders in the area of reliability. Our premium engineering and cutting edge operation management features ensure optimum longevity and service life of your equipment. All backed up with the most comprehensive warranty in the market.

REVENUE - Hiab loader cranes provide many cost benefits that are ideal for businesses with repetitive, efficient operations. With a reliable design, quality materials, game changing smart technology, and industry specific innovation, investing in Hiab equipment provides a total package for any industry.

FEATURES THAT OPTIMIZE OPERATIONS

The **HiDuo** control system with XSDrive remote control brings an unprecedented level of **safety** to operations without reducing performance. This highly flexible system will make your business safer and more profitable with all electronic functions, managed by our SPACE system, which includes Overload Protection (OLP) and Automatic Duty Control (ADC). When approaching an overload condition, the crane gives an audible and visual signal at 90% capacity and will stop all radius increasing functions once full capacity has been reached.

A **Duo** crane is manually operated and easy to use, but it automatically adds a higher level of safety. The crane's SPACE system provides automatic assistance, making it easier to operate the crane safely without special training. Plus it tracks the crane's usage, providing valuable statistics and indicating when service and repairs are needed.

The **HIAB XSDrive** remote control increases **efficiency** by giving the operator freedom of movement to use the best possible position to view the load. It features two-way communication with the crane, proportionally controlling movements. The **HIAB XSDrive** remote control is **reliable** and worry-free industrial component designed to last the life of the crane.

Hiab's **nDurance™** paint is an anti-corrosion paint system using nano technology for the ultimate anti-corrosion coating, maintaining a rust-free **reliable** crane.

Hiab **ProCare™** is a proactive preventative maintenance service contract, designed to **maximize uptime** of all Hiab equipment by maintaining proper service intervals.

Our extensive stock of parts at our **Regional Distribution Center** ensures next-day delivery on almost all items, reducing **downtime** and **saving you money**. The same team you trust to deliver high-quality, premium products to your exact requirements can also be trusted to keep you moving.

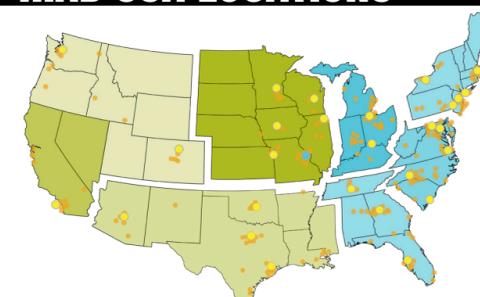

Hiab's **Leading Warranty** exceeds the industry's standard terms because our products are designed to last longer and provide many years of **reliable** service.

Hiab's innovative design elements have the working **environment** in mind. HIAB cranes have a high performing control system, which saves on fuel consumption. Our

Valve 200, when combined with a variable displacement piston pump, provides the highest level of speed, precision, and efficiency available. On average, a HIAB crane with the V200 and variable pump will consume 325 gallons less diesel fuel per year compared to other models using fixed displacement pumps.

HIAB USA LOCATIONS

Our commitment to you

Hiab is the world's leading provider of on-road load handling equipment, intelligent services, smart and connected solutions. Hiab's class-leading load handling equipment includes HIAB, EFFER and ARGOS loader cranes, LOGLIFT and JONSERED forestry and recycling cranes, MOFFETT and PRINCETON truck mounted forklifts, MULTILIFT skiploaders and hooklifts, and tail lifts under the ZEPRO, DEL, and WALTCO brands. As the industry pioneer and with a proud 75 year history, Hiab is committed to be the preferred partner and solution provider to its customers and shape the future of intelligent load handling. www.hiab.com Hiab is part of Cargotec Corporation. www.cargotec.com

V2022.03.15

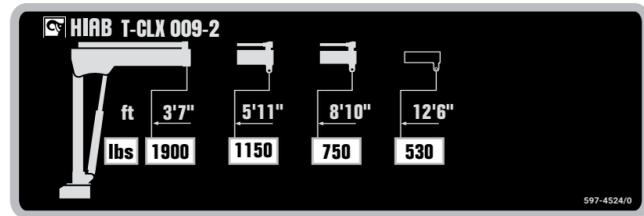

HiCONNECT™ Hiab HiConnect™ is a web-based dashboard that displays insights on equipment usage, location, time in operation, idle time, and productivity level. By enabling new insights, it helps you to further increase efficiency, productivity, and safety. HiConnect is the latest technology in terms of connectivity capabilities. Being able to remotely access data is key to maximizing your business with facts instead of assumptions. HiConnect maintains constant contact with all units, giving fleet managers the ability to stop unsafe behavior and usage before an incident happens. With the ability to view service history and plan upcoming services, your fleet has minimum downtime and increases daily efficiencies.

PRODUCT RANGE HIAB T-CRANE RANGE

T-CLX 009

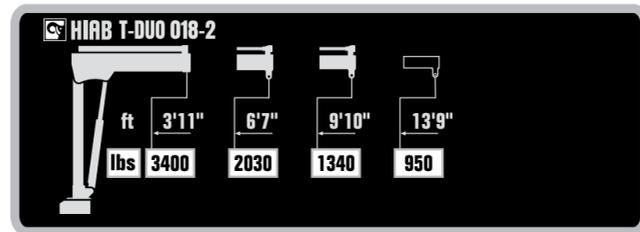

Forget about waiting for forklift trucks. When you need that extra little bit of power, the HIAB T-009 range has what it takes to deliver the goods. The HIAB T-009 range is ready for action, with more than enough power to meet the demands of most light truck operations. Yet it has a low and compact profile that fits comfortably under a pick-up cover.

T-DUO 018

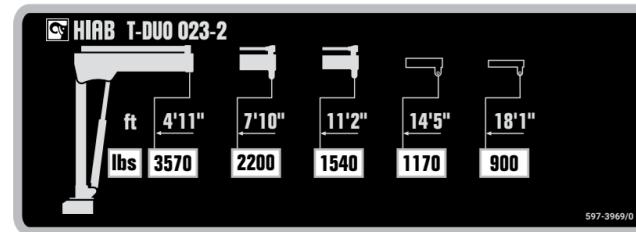

For larger jobs, the HIAB T-018 range increases lifting capacity at full outreach to over 900 lbs. A maximum reach of nearly 10' combined with a low weight of 620 lbs makes the HIAB T-018 a perfect blend of power with compact dimensions for light trucks.

T-DUO 023

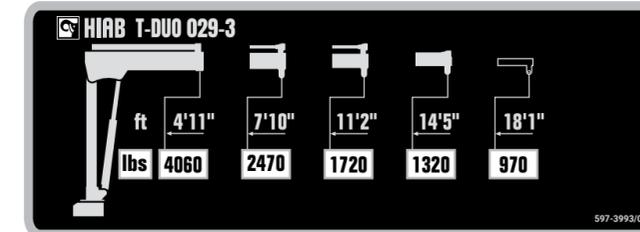

If you need a compact crane with a longer hydraulic outreach than that of the HIAB T-018 range, the HIAB T-023 range will take you further, lifting 1 540 lbs at over 11' out, yet the cranes weigh 720 lbs and are easily accommodated on just about any size of flatbed truck making the HIAB T-023 range ideal for handling barrels, curbs, manhole covers, pumps, traffic barriers, portable toilets, gardening equipment and more.

T-DUO 029

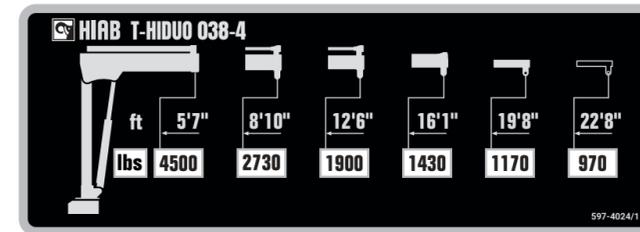

For heavier loads carried on light commercial vehicles, the HIAB T-029 range is a perfect choice. This makes it a valuable asset for any business involving materials handling. Available with up to 4 hydraulic extensions, plus manual extensions, the HIAB T-029 range can achieve an outreach of 18. During close-range work it can lift 3,600 lbs, and well above 900 can be handled at 18' out.

T-HIDUO 038

For utility trucks involved in moderately heavy loading operations, the HIAB T-038 range is the perfect match. Available with two, three or four hydraulic extensions, it has a lifting capacity of 4,500 lbs at close range, plus an outreach of up to 22'. These characteristics make it ideal for handling loads such as heavy gardening equipment, medium-size machinery and building materials.
